

M3CRC 腸道健康檢查計劃內容和收費

M3CRC Gut Health Programme Details and Fee

醫生諮詢 (檢測後諮詢) Doctor consultation (Post-test consultation)

M3 大腸癌檢測 M3 CRC test

收費 (港幣) Fee (HKD) \$1,980

免責聲明：
此檢測不是診斷測試，測試結果應謹慎解讀。

Disclaimer:
The Test is not a diagnostic test. The test result should be interpreted with caution.

M3CRC 腸道健康檢查計劃 M3CRC Gut Health Programme

腸道健康與消化功能及整體健康息息相關。在沒有明顯症狀的情況下腸道狀況的變化未必容易察覺。

本計劃採用由香港著名大學醫學院研發的糞便細菌基因 (M3) 的偵測方法。*

此非入侵性檢測方法透過收集糞便樣本進行細菌基因分析，可偵測早期大腸癌和大腸瘻肉及預測瘻肉復發風險。

The gut microbiota is closely associated with digestive function, immune response, and overall health. In the absence of obvious symptoms, changes in gut condition may not be easily noticeable.

This Programme adopts the faecal “bacterial gene markers” test (M3) developed by the Faculty of Medicine of A Renowned University in Hong Kong.*

Through stool sample collection and laboratory bacterial gene marker analysis, this non-invasive test can detect colorectal cancer early and colorectal polyps and predict the risk of polyp recurrence.*

結合科研與臨床應用，讓腸道健康管理更早一步。

Integrating research with clinical application to support earlier and more informed health management.

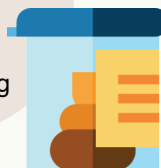

計劃特色 Programme Features

✓ 非入侵性檢測 Non-invasive test

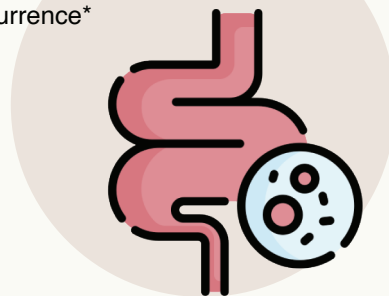

本計劃採用由香港著名大學醫學院研發的糞便細菌基因 (M3) 的偵測方法。*

This Programme adopts the faecal “bacterial gene markers” test (M3) developed by the Faculty of Medicine of A Renowned University in Hong Kong.*

透過檢驗糞便的細菌基因，偵測大腸癌、大腸瘻肉及大腸瘻肉復發*

Through “bacterial gene markers” test, detect colorectal cancer (CRC) and polyp and polyp recurrence*

✓ 檢測結果將由醫生進行專業解讀， 提供具臨床參考價值的資訊 Test results are interpreted by our doctor, providing clinically relevant information for your reference
