Dermatology and Plastic Surgery Clinic is managed by dermatologists, plastic surgeons and professional nurses. The team provides personalised medical advice and treatment based on the patient's needs. Our professional dermatology team is dedicated to providing comprehensive diagnosis and treatment for patients of all age groups with various skin problems, alongside with our equally distinguished plastic surgery team specialised in performing restoration, reconstruction, or refinement of physical defects of form or function. Reconstructive surgery and Cosmetic/Aesthetic surgery are essential components of plastic surgery. Plastic surgeons utilise both reconstructive and aesthetic principles to optimise the appearance, functional outcome and the quality of life of the patient.

Our Services

Dermatology
