

Emergency Response Level – Notes to patients and visitors

In response to the latest situation of COVID-19, CUHK Medical Centre (the Hospital) has adopted the following measures with effect from 6 Jan 2021:

General Information

- All visitors are required to enter the Screening Station located at the designated entrance of the Hospital Building and receive temperature check before getting into the Hospital.
- All visitors are required to wear surgical masks at all times. Visitors who don't comply with this rule will be asked to leave.
- People with fever OR acute respiratory symptoms OR pneumonia, AND visited *the countries/ areas with active community transmission of COVID-19/contacted any confirmed cases in the last 14 days before onset of symptoms; OR confirmed COVID-19 patients within 4 weeks after discharge and without a valid negative re-testing result are considered as "high risk individuals". They would be referred to hospitals under the Hospital Authority for further management.

COVID-19 PCR Test Admission Screening

- All inpatients or patients receiving day procedures are required to provide negative COVID-19 PCR test result within 72 hours of admission. No test result is required for outpatients and visitors.
- Patients could take the COVID-19 PCR test at a government recognised testing institution or CUHK Medical Centre at their own expense. The Hospital will charge a cost price for the test.

Visiting Arrangement

- Visiting Hours: 12:00 - 13:00 and 18:00 - 19:00
- Visitor Limit: 1 person only
- Maintain good personal and hand hygiene practices at all times.
- Perform hand hygiene before leaving the patient room by using alcohol-based hand rub or soap and water.
- No eating or drinking during visits, and do not remove the surgical mask at any time inside the hospital.
- Maintain appropriate social distancing during visits.
- For the sake of patient and visitor safety, ward visits are not allowed for the following persons:
 - People who are symptomatic such as fever, respiratory symptoms or sudden loss of smell/ taste at the time of visiting;
 - People who have travel history outside Hong Kong in the past 14 days;
 - People who have been in close contact with confirmed case in the past 28 days;
 - People who are under medical surveillance;
 - People whose household members are under home quarantine;
 - People who received a written direction for COVID-19 testing under the Prevention and Control of Disease (Compulsory Testing for Certain Persons) Regulation (Cap. 599J) and cannot provide a negative COVID-19 test result; and
 - People who have visited specified premises in the specified time listed in a compulsory testing notice under the Prevention and Control of Disease (Compulsory Testing for Certain Persons) Regulation (Cap. 599J), and cannot provide a negative COVID-19 test result.

Please note that the above-mentioned measures are subject to change in accordance with the epidemic situation without prior notice.
